

## Diagnostic and Competency Charts – Elementary Education NES Subtest 1

Please complete the following charts to provide additional evidence for your case-by-case (CBC) exception request.

### Diagnostic Chart

Complete this diagnostic comparison chart using your diagnostic results for **each** of your content exam attempts.

1. In each column replace “DATE” with the date listed on your diagnostic result.
2. Fill in each domain/competency column with the percentage of questions passed for each attempt listed on your diagnostic report. You calculate the percent by dividing the number of correct questions by the total number of questions for each domain.
3. At the bottom of each column, enter the total score you received for that date’s content exam attempt.
